

THE ON-RAMP TO VERKADA'S CLOUD-BASED COMMAND PLATFORM

EXPERIENCE A SEAMLESS CLOUD MIGRATION

Verkada Command Connector allows organizations to add legacy cameras to their Command organization quickly, easily, and reliably. Command Connector supports many, although not all, features of a native Verkada camera, including video analytics, easy remote administration, simplified retention, and a single pane-of-glass management platform. Command Connector is an organization's easy on-ramp to our cloud-based system, enabling the transition while keeping financial and operational considerations top-of-mind. There are three Command Connector models: the CC300, CC500, and CC700. They have varying levels of storage and camera capacity, from 10-50 channels in 5MP quality or 5-25 channels in 4K quality.

FEATURES

- Support for recording and playback ranging from 5MP (or less) to 4K resolution
- RAID10 for high reliability
- People and Vehicle Analytics
- AI-powered search
- 5-year warranty

STORAGE AND VIDEO RECORDING

- 4TB-32TB of onboard storage
- 30-90 days of continuous video recording per channel
- Adaptive quality recording automatically triggers HQ recording when motion is detected
