

SWIFTPRO RTP6000: AN ID CARD PRINTER WITH 600 DPI QUALITY

HIGH QUALITY, SINGLE- AND DOUBLE-SIDED PRINTING

The Swiftpro RTP6000 retransfer card printer is ideal for businesses requiring high-quality identification cards, passes, and badges with personalized physical and logical access management. The ultra-fast, powerful printer is available with contact and contactless smart card encoding technologies and 100-card input and output hoppers, with an optional 250-card input hopper upgrade. This reliable and durable printer is well-suited for both entry level to advanced secure card programs for a range of vertical markets.

SECURITY

- Patented Security Erase function prevents leakage of personal information on the ink ribbon. It scrambles information beyond recognition to protect this data.
- For network security, the printer supports IPSec (IPv6 / IPv4). Encryption protects personal information on a network.

CAPABILITIES

- Single and Double-sided printing
- Text, numeric, logos, barcode
- Output hopper 100 cards (optional 250)
- 120 Cards/Hour YMCK (Single)
- 64 Cards/Hour YMCKK (Double)
- 600 DPI for high-definition print quality
- Smart Card Encoding (contact and contactless)
- Magnetic Stripe Encoder
